

## Student Accounts (Preschool-Grade 1) - QR Code Log In

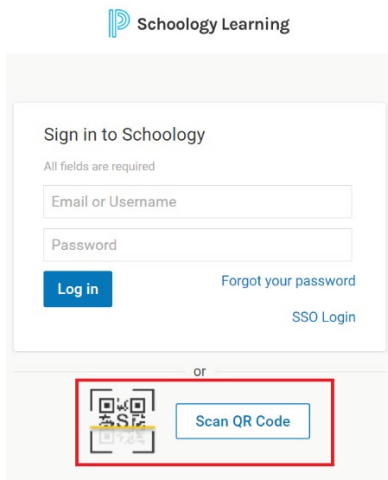

Follow these instructions to help students in preschool-Grade 1 log into their student Schoology accounts.

**Please Note:** You cannot just scan the QR code with a device camera; you must go to the Schoology site first.

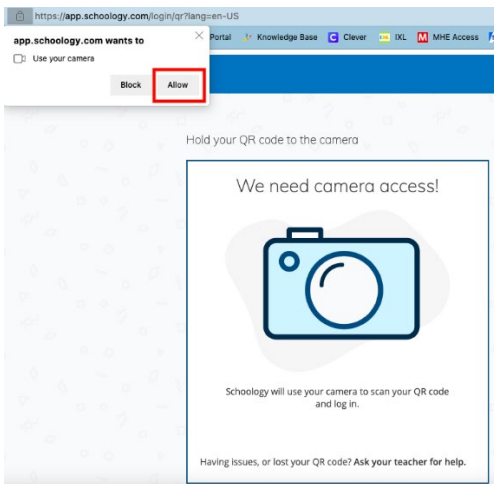

1) In an internet browser, go to: <https://app.schoology.com/login>.

(The app can also be used, but it has limited features available to students)

2) Click on 'Scan QR Code'.

3) It may prompt you to allow camera access.

4) Hold up the QR code within the outlined box and it will automatically log your child in.

Now students can access Course materials by clicking into one of their Courses.

**When inside a Course, students will also have access to other online curriculum programs such as McGraw Hill and IXL if on an internet browser (Grades K-1). If using the app, online curriculum tools such as McGraw Hill and IXL will not be accessible.**
